

Who Stole the Anti-Matter?

EVERYONE ON YOUR TEAM HAS A UNIQUE ROLE AND A KEY PART IN FIGURING OUT WHO STOLE ANTI-MATTER AND PROVING IT!

Who Stole Anti- Matter is a unique crime proving event where teams must prove who stole "Anti-Matter" using evidence they discover, and solid reasoning. Teams can interview and interrogate actual suspects, and discover hidden evidence using real investigative tools and techniques.

- Who Stole Anti- Matter Team Building Includes:
- 6 unique roles for each team for 8 to 12 people
- UV Hidden Evidence
- Investigative Tools: DNA, Ink, Hair, Blood, Tire and Foot Tread, and Finger Printing
- Live Suspects to interview and interrogate.
- Fun Props and Organizational Tools to help teams put it all together

The plot, props, and structure of the event allow your team to suspend their disbelief and enter a zone where they become the detectives. It is a great opportunity for fun together, and to test your critical thinking skills against other teams, and hopefully save the planet!

TeamWorx did an amazing job facilitating our Anti-Matter teambuilding event... This was the best, most creative event that I have ever experienced.
