

Similar to the popular TV show "BattleBots," *Robot Battles Team Building* allows teams to **build** a functioning robot together and then **battle** each other in robot combat!

Robot Team Building is the perfect test of real world team building skills. Four component robot parts must be built correctly, then each part must work in combination with the other parts, for the entire robot to work. Successful teams use teamwork and leadership to out perform the other teams.

"Yay! Like they say at Facebook, move fast & break things (records in this case!). All in all, it was a very engaging and exciting team event. We were all able to get our hands dirty with building something new and then just lay back and have fun! Working with you was so smooth and you definitely pumped up the atmosphere for our event. We're glad we opted for TeamWorx!"

Facebook

EVERYONE GETS TO BATTLE

Multiple Rounds of All-Bot Melee for Points!

All building and battles are perfect in a meeting room or ballroom format and require only tables and chairs.

Large or small groups work great (10 - 500+) people!

Ideal at about 2 hours, or 1 hour "Battle-Only" event

"We had a very talented group of technical directors and we wanted a unique event that would be challenging and also fun ... Wow TeamWorx delivered! The Robotics team building was ridiculously entertaining, challenging, and engaging. Competing for the world record just added to the competition and the fun!"

DreamWorks Animation

"Building the robots was a great opportunity for everyone to collaborate with people they don't normally get to work with. The battles, though, were the standout highlight: the whole team was jumping and cheering as we fought our tiny mechanical creations for eternal bragging rights and glory... Highly recommended!"

Google

"We were looking for an engaging event that promoted collaboration, and Teamworx delivered. The robotics team-building competition gave our employees a unique opportunity to explore science and technology alongside members of the local community. It was an inspiring event for all involved and Teamworx made it possible."
