

TeamWorx Widji Speed Teams

Speed Rounds: Teams of 4-6 people each compete in a virtual environment to solve sets of *Widjis* faster than the other teams. Each team has multiple opportunities to be the winner in several different categories.

A *Widji* is a set of pictures that are combined to have a specific, singular answer,

- Famous People
- Netflix Shows
- Movie Titles
- Social Media & Tech Companies
- Music Bands
- Famous Sayings and Random Words

Widjis (pronounced "wi" like "win" "d" then "gee" - "wid - gee") are the ultimate team talk igniter and bonding agent. They require complete participation from the whole team for each fast paced round of competition.

People's prior knowledge and real time creative thinking come together to allow everyone a time to shine in leading their team to success.

Each round includes 12 *Widjis* with easy, medium, and hard difficulty. The winning team is the first to solve 10 of 12, or all 12 for a bonus!

Great banter and spontaneous conversations overflow between rounds as teams learn the answers they didn't get, winning teams gloat, and everyone inspires each other.

4-5 *Widji* rounds takes about 45 minutes to 1-hour. Go to 2-hours with up to 9 Rounds!
