FINGERPRINT MATCHING

Use techniques below to match each **Fingerprint Card (1-8)** to a **Suspect**.

Basic Patterns

Plain Arch

Ridges start and end on opposite sides.

Tented Arch

"Significant Up Thrust"

Loop

The ridges start and end on the same side.

Whorls

The ridges join to form a circle.

FIRST: Find & match **Basic Patterns** between the fingerprint found on the **Fingerprint Card** and a **Suspect** fingerprint.

NEXT Verify your Results
Match 3 Distinctive Features (shown right)
to be sure of match.

Examples of Distinctive Features

Ridge Ending

Eye

Matching a Fingerprint to a Suspect

Step 1: Analyze the **Fingerprint Card** to find **basic patterns** and **distinctive features**.

Step 2: Analyze **Suspect** fingerprints for **Basic Patterns** that match the **Fingerprint Card**, and then match three **Distinctive Features** between prints to verify.

Step 3: Document on your team sub-thread
"Fingerprint Results."
