

Robot Build and Battle Team Building

Robot Build and Battle 1

- Groups of 300 to 10 people
- Teams of 5 to 6 people

Teams use teamwork to build a robot faster than the other teams, and for a World Record.

Teams can modify the robot for advantage!

Once the robot is built, teams battle each other in multiple rounds of robot combat!

Over 500 amazing events since 2016!

- Available onsite at your location in any meeting room setting
- Accessible to all departments!

“TeamWorx were excellent leaders and emcees for our team building event. We booked the robot-building competition for 150 people and it was a raging success. In my 3.5 years at Meta, I have planned over 100 offsites and never have I seen a group of this size so fully engaged. After the robots were built, the battles began and we saw everyone’s true competitive spirits come alive! The entire team came back to work the next day energized by all of the fun! Best team building event ever! Thank you Wayne!”

Robot Build & Battle 2

- Groups of 500 to 30 people
- Teams of 8 to 10 people

Teams use teamwork to build a robot faster than the other teams, and for a World Record.

- Bigger, Faster, Harder Hitting Robots
- 2 hours versus 1.5 hours for Robot 1
- Great for large groups

Once the robot is built, teams battle each other in multiple rounds of robot combat!

Google, LinkedIn, Meta, Textron, and others!

- Available onsite at your location in any meeting room setting
- Accessible to all departments!
- Teamwork is the difference

“It was crazy fun. There were 50 robots fighting and 500 people cheering them on. The crowd was yelling and standing on their chairs. I had no idea how successful this experience was going to be. People loved it! We may have set the bar too high for next time.” *Salesforce*
