

ROBOT BUILD & BATTLE

The original robot team building event! Build it together, Battle it together!

OVER 500 EVENTS SINCE 2016 · GROUPS OF 10 TO 500 · ONSITE AT YOUR LOCATION

TEAMS RACE THE CLOCK

MODIFY FOR ADVANTAGE

MULTIPLE BATTLE ROUNDS

LAST BOT STANDING FINALE

ROBOT BUILD & BATTLE 1

10-300 PEOPLE · TEAMS OF 5-6 · 1.5-2 HOURS

Four robot components are built simultaneously; every part has to be accurate and assembled correctly or the robot will not run. Teams race each other and the World Record clock, modify the attack arm for a strategic edge, then fight multiple rounds of robot combat.

BEST FOR

Any meeting room, indoors or out. Every department: teamwork, not technical skill, decides the winner.

01 BUILD

Teams split the components and assemble a working battle robot against the clock.

02 MODIFY

Reshape the attack arm and set up the robot for a strategic edge in the arena.

03 BATTLE

Multiple rounds of combat, repairs between fights, and a Last Bot Standing finale!

CHASE THE WORLD RECORD

Fastest RB1 build: **21:32 Sila**

Fastest RB2 build: **32:40 Marvell**

Can your team crack the Top 100?

ROBOT BUILD & BATTLE 2

50-500 PEOPLE · TEAMS OF 7-10 · 2-2.5 HOURS

Bigger, faster, harder-hitting robots assembled from seven component parts. Two people drive each robot, so communication wins battles. Every robot enters the All-In Arena at once; robots take real damage and teams triage and repair between rounds.

BEST FOR

Large groups, engineering and tech teams, and companies stepping up from Build & Battle 1.

"In my 3.5 years at Meta I have planned over 100 offsites, and never have I seen a group of this size so fully engaged. Best team building event ever!"
