DRONE GAMES

Build it, fly it, break it, build it better — then race the room!

TEAMS OF 5 OR 10 · NO LIMIT ON GROUP SIZE · 2 HOURS · INDOORS AT YOUR LOCATION

DESIGN, BUILD, TEST, REPEAT | **FIVE EXPERTS PER TEAM** | **THREE FLYING COMPETITIONS** | **EVERYONE GETS TO FLY**

SMALL GROUPS

UP TO 100 PEOPLE · TEAMS OF 5 · 2 HOURS

Each team builds one custom drone from a complete kit, then modifies and repairs it between rounds. Every person takes one of the five areas of expertise, and everyone gets a turn at the controls. The winning team keeps their drone.

BEST FOR

Any meeting room, indoors. Every department: collaboration, not engineering, builds the winning drone.

LARGE GROUPS

100+ PEOPLE · TEAMS OF 10 · 2 HOURS

Each team builds two drones and the expertise is shared by power-pairs of two. The second drone opens up real strategy: a backup, a specialist built for one competition, or two designs where the best one flies. All drones are donated to STEM programs.

BEST FOR

Large groups, engineering and tech teams, all-hands meetings and conferences.

01 ALL FLY

Speed round. Every team member flies the course around the scoring stack.

02 ALL TRY

Landing round. Points for every landing on target, with a bonus for hitting them all.

03 BEST FLY

Cargo round. Best fliers run cargo — some scores big, some costs you points.

FIVE EXPERTS, ONE DRONE

Flight **Design** **Strategy**
Build **Piloting**

One per person, or one per pair of two.

SAFE AND FUN INDOORS

Small, light drones tested around ceilings, walls and sprinkler heads. No netting, no outdoor space, no pilot certification. Safety video on request.
