

BUILD A BETTER TEAM • TEAMWORK TRAINING

Picture Your Team Like This

Laughing together. Trusting each other. Solving problems fast because they genuinely know and respect one another. That's the team Build a Better Team creates.

IT STARTS PERSON TO PERSON

Great Teams Aren't Built in a Chat Window

They're built in real moments: the conversation where someone finally feels heard, the shared laugh that breaks the ice, the challenge solved together that no one could have solved alone.

Build a Better Team creates those moments on purpose, then gives your people simple, repeatable skills to keep creating them long after the workshop ends. Redesigned for the modern workplace, and customized to your culture and training objectives.

Now imagine...

- The meeting where everyone already trusts each other, so the real conversation starts right away.
- The new hire who feels like part of the team in days, not months.
- The tough problem your team solves together, faster than anyone expected.

WHAT YOUR TEAM GAINS

The Team You've Been Hoping For

01

Real Connection

People who genuinely know each other, face to face, with trust that shows up in every meeting after.

02

Skills That Stick

Easy, repeatable tools your team uses the very next day, and the day after that, so good habits become the culture.

03

Relationships, Fast-Tracked

Skip months of awkward getting-to-know-you. Relatable people skills turn coworkers into partners quickly.

04

Open Minds

A team that welcomes new thinking and tears down the invisible barriers that keep good ideas hidden.

05

Fresh Eyes on Old Problems

The confidence to challenge assumptions together, opening up answers no one saw before.

06

Communication That Clicks

Clear, high-level team communication that gets great results fast, even when the pressure is on.

OPEN MINDS, BETTER ANSWERS

Where the Best Idea Finally Gets Heard

Every team has invisible barriers: the assumption nobody questions, the quiet voice that rarely speaks up, the "we've always done it this way." We help your team see those barriers and step past them together. When people challenge their assumptions, the range of possible answers opens up, and so does the room.

- **Thinking Out-of-the-Box**
- **Recognizing Confirmation Bias**
- **Getting Genuine Buy-In**

WAYS TO USE IT

One Training, Many Goals

- **Jump-Start a New Team.** Get a new team aligned and working well together, quickly.
- **Build a Shared Culture.** Create a workable, relatable, and effective teamwork and problem-solving culture shared by everyone.
- **Improve Your Existing Team.** Give an established team fresh tools and a common language to raise its game.
- **Elevate Your Offsite.** Enhance an offsite with interactive, fun, and meaningful activities.
- **Evaluate Talent.** See how new or existing team members think, communicate, and collaborate in action.

THE WORKSHOP

A Workshop That Doesn't Feel Like One

Your people are on their feet, talking, laughing, and tackling team challenges together. Every tool is learned by doing, so it sticks, and every session is built around your team's goals.

3 TO 4 HOURS

Half Day

Build Better Working Relationships

- 1-Minute Personality Styles Tool
- Clarifying Values: Clarifying Who You Are
- Thinking Out-of-the-Box
- Getting Buy-In
- Confirmation Bias
- 3 Proven Problem-Solving Skills for Teams
- Final Reflection

7 HOURS

Full Day

From skills to team test

Everything in the Half-Day program, plus:

- Team and Individual Accountability
- Communicating Effectively Under Pressure as a Team
- Team Test: use the workshop tools to succeed at increasingly difficult teamwork challenges
- Debrief and Reflection

CASE STUDY

SK Battery: Leadership Program Kickoff

OBJECTIVES

- Jump-start their leadership training program
- Build bonds among participants before the rigorous training began

OUR APPROACH

- Integrated the workshop into how they planned to use the training
- 95% interactive team challenges to match their application-based leadership program
- Content matched to the participants, Shift Managers and Department Managers

RESULTS

- Useful skills for immediate application on the floor
- A shared set of teamwork, problem-solving, and leadership principles
- Stronger relationships between participants from day one

IN THEIR WORDS

“Engaging, meaningful, and well received.”

> *“Thank you for the tremendous effort your team invested in designing and delivering an outstanding kickoff workshop for our Shift Managers and Department Managers. The workshop was engaging, meaningful, and well received. I especially appreciated the intentional team-building elements woven throughout the workshop. In a manufacturing environment like ours, strong leadership and results depend on strong partnerships across teams. The team-building activities helped create connections that will support better communication, collaboration, and problem-solving long after the workshop concluded. Establishing those relationships early in the program is an important part of creating a cohesive leadership team.*
>
> *In addition, I really appreciated how you took the time to understand our internal leadership development program and intentionally connected the workshop content to some of the key messages and objectives we are working to reinforce with our leaders.*
>
> *We truly value the partnership and expertise your team brought to this initiative. Thank you again for your support, flexibility, and commitment to helping us connect and develop our leaders.”*
>
> **SK Battery**

This Could Be Your Team

The high fives. The trust. The feeling that together, you can take on anything. Let’s build it.
